

CUSTOM METAL BUILDING SYSTEMS  
**AGRICULTURAL**

## **With over 70 years of experience, American Buildings understands the special needs and requirements of agricultural facilities.**

From storage spaces for equipment, agricultural structures for personal or business purposes, to livestock barns, arenas, or equestrian buildings for the community or fairgrounds, we offer a full flexible product line that is custom designed to meet each client's unique needs. With an ABC metal building, livestock and equipment are not just stored, they're protected. Our building systems offer the maximum in design flexibility, including clear span frames, high eaves, and expandable endwalls. We can design your structure with future expansion in mind, so as your need for space grows, so can your building.

### **Powerful Relationships. Powerful Results.**

American Buildings is a division of Nucor Corporation, North America's most diversified steel and steel products company. Their integrated infrastructure allows us direct access to an uninterrupted supply of steel. As a result, we have the ability to provide our customers with single source solutions for a wide range of products. Our strength, stability, capacity, resources, and customer-driven focus offer unprecedented value to our customers.

### **Nationwide Authorized Builder Network**

With a coast-to-coast Authorized Builder network, there is likely an experienced ABC Builder in your local area to partner with on your custom metal building solution.

### **Innovative, Cutting Edge Technology**

As leaders in innovation, we continuously develop some of the most versatile, energy-efficient and cost-effective building solutions on the market today. As a result, we develop new solutions or improve existing ones that provide you with high-performance, competitive products.

### **Superior Product Systems**

ABC has raised the metal building industry bar with our high-performance products designed to meet your unique needs. We offer a full range of metal building framing options, industry-proven roof panel systems, attractive wall panels, insulated metal panels, energy-saving prismatic skylights, innovative mezzanines, and multiple building accessories.

### **Technical 3D BIM Design Strength**

Each ABC building system is custom designed from the ground up utilizing Tekla BIM 3D software. You will have a digital prototype that incorporates all aspects of your building from framing to components such as electrical, plumbing and HVAC, which facilitates coordination and cooperation between all principal trade contractors on your project. This allows issues to be addressed early in the process, before your building is manufactured – saving you time and money, and bringing your building to life faster and more efficiently than ever before.

**Metal building construction can be a more economical solution.**

The affordability, design flexibility and energy efficiency of metal building systems make them an appealing solution for agricultural facilities.

# AGRICULTURAL

### ABC metal buildings provide versatile building solutions
